

## **Migraine Study Now Enrolling in Watertown, Massachusetts**

Are migraine attacks affecting your quality of life? If you suffer from frequent migraines, consider participating in a clinical research study testing a natural investigational nasal spray for migraine prevention!

To be eligible you must:

- Be between 18-65 years old
- Have at least a 1-year history of migraine
- Experience between 4-14 migraine days per month and 3-14 migraine attacks per month
- Able and willing to complete a daily migraine-history diary

Learn more and see if you qualify!
